Subject: RE: Sterigenics Santa Teresa

As I understand it, the monitoring was done by someone hired by the NM AG's office. The data was cited in the AG's complaint against Sterigenics. The AG has not shared any of that data with us, so we don't have any data to share or access to that data.

This obviously was not us. How can I find this out for EPA?

Subject: [EXT] Sterigenics Santa Teresa

Hi, Donna.

Back in December, the NM Attorney General filed a lawsuit against the Santa Teresa Sterigenics facility. In that lawsuit, the AG cited ambient air monitoring for ethylene oxide. Can you provide me details about this monitoring including who collected the samples, the methods used for collection and analysis of samples, sampling dates and times, locations of the monitors, and the results of the monitoring? If there is a sampling and analysis plan and QAPP available, could you send those to me also?

Thank you for your time in researching this information for me.

Fran
